For new and small businesses, our Wokingham centres are the ideal way to develop and grow. Using our services instantly gives you the right business infrastructure and support.

It's a great way of working more efficiently because you avoid the need for large start-up capital investment, and you don't risk over-expansion. We also help you build that all-important professional image for your company.

We work specifically with new venture or start-up organisations, and growing small to medium-sized organisations.

Most of our clients come from Wokingham and the surrounding Thames Valley. We love being a part of their success.

We call this concept

“Business Enterprise Centres”

“I've been residing at Indigo House for several years now and have occupied three of the offices here because my company has changed size over the time I've been here. I've been able to swap around to suit my needs and budget. It's a great place to run a small business because it's so flexible.”

Fit for purpose.

Choose anything from a single occupancy space to a large open plan area. A great choice of offices to suit your business and pocket.

“We employ four full time staff but often have extra resource to help us through the busy periods. Our office suite easily accommodates us and if we have client meetings and presentations we simply book one of the meeting rooms so as not to interrupt the day-to-day work of the company,”
